

# VAIBHAV CHODANKAR

Software Developer | MERN Full Stack Developer

📞 7498752343   @ vaibhvac03@gmail.com   🌐 vaibhav-chodankar.github.io/   📍 Goa, India

☆ I'm seeking full-time role in MERN Full Stack Development.

## ABOUT ME

I'm a Software Developer with a passion for crafting cross-platform responsive full-stack applications. My journey began with a strong foundation in computer science, culminating in an IoT-based "Automated Water Level Monitoring System."

I thrive on problem-solving and continuously embrace new challenges and technologies. Outside of work, I enjoy biking, watching movies, and gaming with friends.

## EDUCATION

### BSC in Computer Science

Government College Of Sanquelim, Goa

📅 2021 - 2024   📍 Goa, India

GPA  
**8.89** / 10

## PROJECTS

### Car Showroom

🔗 [github.com/Vaibhav-Chodankar/Showroom](https://github.com/Vaibhav-Chodankar/Showroom)

- Car Showroom website developed using React, Node.js, MongoDB, Bootstrap, Axios, and CORS.
- This full-stack application demonstrates comprehensive CRUD (Create, Read, Update, Delete) operations, providing users with a seamless experience for browsing, adding, updating, and deleting car listings.

### Farm Products Manager

🔗 [github.com/Vaibhav-Chodankar/Farm-Products](https://github.com/Vaibhav-Chodankar/Farm-Products)

- This application was developed using Express.js, EJS, Mongoose, and styled with Bootstrap.
- This robust web application handles full CRUD (Create, Read, Update, Delete) operations for managing farm products and displays their current rates.

### Quiz Game

🔗 [github.com/Vaibhav-Chodankar/Quiz-App](https://github.com/Vaibhav-Chodankar/Quiz-App)

- Quiz Game application is developed using HTML, CSS and Javascript and styled using bootstrap.
- API to generate Unlimited questions.

### My Portfolio

🔗 [vaibhav-chodankar.github.io/](https://vaibhav-chodankar.github.io/)

Check my portfolio for all of my projects information.

## SKILLS AND TOOLS

MERN Stack

Javascript

Python

C/C++

PHP

MySQL

Firebase

Git

Dart

Arduino

ESP32

Bootstrap

Tailwind

VSCode

MongoDBCompass

Eclipse

XAMPP
